CS 256 Quiz2
Thursday Septemebr 21

Question 0.1 *Write a program that converts all the temperature values from 0 F to 100 F (Fahrenheit) to Celsius.*

Question 0.2 *Write a program that reads a string from user and converts all the upper case letters to lower case letter and converts all the digits to $'0'$.*

If input is "A4-(BcD" then your program should print out "a0-(bcd" .

Question 0.3 *(optional) Write a program that reads a string (only upper case letters) and converts it to a number by replacing each letter to its ASCII code.*

For example if the input is "ACDZ" then your program should print out 65676890. Suppose the length of the string is at most 6.
