Linux Terminal

⚠ This is a preview of the draft version of the quiz

This is a quiz on using the linux terminal - basic commands, how to navigate, file permissions, etc. The material for this quiz is from the following (and pages linked from there): [Linux and CS Systems - Getting Started](https://cs.indstate.edu/wiki/index.php/Linux_and_CS_Systems_-_Getting_Started) [↗\(https://cs.indstate.edu/wiki/index.php/Linux_and_CS_Systems_-_Getting_Started\)](https://cs.indstate.edu/wiki/index.php/Linux_and_CS_Systems_-_Getting_Started). Note that the fill in the blank questions and are case sensitive and must be exact. For example, the answer to the first question is mkdir; Mkdir would be incorrect and so would makedir or mkdirectory.
